LABORATORY SAFETY WORKSHOP OFFERED DURING  
SUMMER SESSION AT UNIVERSITY OF MONTANA

MISSOULA--

The University of Montana Department of Chemistry will offer a Laboratory Safety Workshop during the 1976 UM Intercession, a special one-week session set for July 19-23 at UM.

The workshop, offered for one graduate or undergraduate credit under Chemistry 490, Laboratory Safety Workshop, may be of special interest to science teachers. It is designed to help teachers make school science laboratories safer for students.

Accident prevention, safe storage of chemicals, laboratory hazards, protective equipment and first aid will be studied. Films on laboratory safety, some of which can be useful for training students, will be viewed. Dr. Forrest D. Thomas, professor of chemistry at UM, will teach the course.

Persons interested in this or any other course offered during the UM Summer Session may write to the Center for Continuing Education and Summer Programs, Main Hall 107, University of Montana, Missoula, Mont. 59801, or phone 243-2900.
